

COMPANY OVERVIEW

Assort Health replaces the front-desk phone system at doctors' offices with AI. U.S. practices spend billions/yr on receptionists and call centers, yet up to 42% of patient calls go unanswered at peak. Assort's specialty-specific AI agents (now covering 22 specialties) answer calls across voice, text, and web - handling scheduling, prescription refills, lab results, referrals, intake, plus proactive outbound outreach via the new Activate product (May 2026). Platform plugs into 84+ EHR/PMS systems, supports 1.2M+ workflows. Now serving 5,000+ providers; 150M+ patient interactions to date. Series C in progress at \$1.2Bn post led by Menlo Ventures (NEW lead).

WHY CONSIDER

Steep Revenue + Customer Velocity

Interactions: 42M (Aug '25) to 125M (Apr '26) to 150M (May '26) - ~3.5x in 9 months. 5,000+ providers across 22 specialties (up from orthopedics-only at Seed). 8x revenue growth Q4 '24 to Q4 '25 (per Series A press); pace continued through Series B. Named 2026 Enterprise Tech 30 alongside OpenAI, Anthropic, Stripe, Ramp.

Menlo Ventures NEW Tier-1 Lead

Menlo NOT in cap table previously (per PitchBook). Lightspeed (Series B lead), Felicis, A*, Liquid 2, First Round, Chemistry, Quiet all stay in. Galym Imanbayev MD (Lightspeed) already on board. Paul Ricci (founding CEO of Nuance, acq'd by MSFT \$19.7B) board advisor.

Product Surface Area Just Expanded

Activate (launched May 5, 2026) extends platform from inbound calls to proactive outbound outreach - care gaps, billing, scheduling. Net-new revenue surface. Plus dermatology expansion (Apr '26) added 5 marquee customers. Hippocratic AI (\$3.5B), Hello Patient (\$100M) still in category - Assort is the specialty-depth play.

COMPETITIVE LANDSCAPE

COMPETITOR	DESCRIPTION	THREAT
Hippocratic AI Private - \$3.5B / Nov '25	Category leader; clinical patient-facing tasks (not scheduling). Different focus but largest brand. Sets valuation ceiling.	HIGH
Hyro Private - Enterprise	Conversational AI for large health systems (Intermountain, Montefiore, Hartford). Plug-and-play for Epic.	HIGH
Hello Patient Private - \$100M / Sep '25	Most direct startup comp. Founded 2023 (same year as Assort). Scale VP-led Series A. Behind Assort in scale.	HIGH
Notable + EliseAI + Others Adjacent + emerging	Notable (\$1.4B '21 stale), EliseAI (RE pivot), Sully.ai, Syllable, Luma. Long tail forming.	MEDIUM

ROUND DETAILS

Round	Series C (UNANNOUNCED) - In progress, May 2026
Valuation	~\$1.2Bn
Round Type	Series C
Lead	Menlo Ventures (NEW Tier-1 - first time in cap table)
Step-Up	~1.7x from Series B (\$700M post, Aug '25)
Board	Galym Imanbayev MD (Lightspeed) on board; Paul Ricci (Nuance founding CEO) board advisor
Prev. Rounds	Series B: \$76M / \$624M pre / \$700M post / Aug '25 / Lightspeed led Series A: \$22.5M / \$97.5M pre / \$120M post / Mar '25 / First Round + Chemistry Seed: \$3.5M / \$14M pre / \$17.5M post / Mar '24 / Quiet, Tau, Four Acres + angels
Total Raised	\$102M cum. through Series B; Series C size TBC
Round Velocity	Series B to C in ~9 months. Continued demand pace per public signals.

FOUNDING TEAM

Jeff Liu

Co-Founder & Co-CEO

Spent two years embedded in healthcare workflows before launching Assort with Wang in 2023. Domain depth shows up in product's specialty-specific design (1.2M+ configurable workflows, now spanning 22 specialties).

Jon Wang

Co-Founder & Co-CEO

Co-CEO alongside Liu. On the quick Series B: 'we raised to scale a platform solving an important patient access problem.' Featured in VIVE 2026 Healthcare Innovation Report on AI-native patient access.

Paul Ricci

Board Advisor (Aug '25)

Founding CEO of Nuance Communications - defined medical voice tech for 20+ years before Microsoft acquired Nuance for \$19.7B in 2022.

Pt. Interactions	Early	Growing	42M+	150M+ (May '26)
Specialties	Ortho	Multi-spec	Multi-spec	22 specialties
Providers	Pilot	Hundreds	Thousands	5,000+
Headcount	Small	Scaling	77 (Nov '25)	127 (Mar '26)

RISKS & MITIGANTS

Valuation - Paying \$1.2Bn on Estimated \$25-40M ARR

Series C is unannounced; revenue is estimated from 3.5x interaction growth + Activate launch + 22-specialty expansion. At \$30M ARR midpoint = ~40x forward. Defensible vs Hippocratic mark but a stretch.

Series B Was Just 9 Months Ago

Step-up of ~1.7x in 9 months is fast even by 2026 standards. Need to confirm round is demand-driven (not burn-driven) and that pro-rata participation is strong from B investors.

Category Crowded - Hippocratic Brand Pulling

Hippocratic at \$3.5B is the category brand. Hello Patient + Hyro splitting deals. EliseAI just pivoted in. Specialty-depth is Assort's wedge but copyable if working.

EHR Integration Is Both Moat and Risk

84+ EHR integrations is a real moat - but Epic / Athena building native voice would be a category-level event.

Two Co-CEOs - Structure Watch Item

Co-CEO structures often get reorganized before IPO. Worth confirming Liu/Wang split at this round.

Healthcare Sales Cycles + HIPAA + Liability

Procurement is slow. AI agents handling patient comms carry liability if they misroute. Administrative-only scope is the protective frame.

Private + public comparables for healthcare voice AI / patient engagement - Bull / Base / Bear scenarios for ID8's Series C entry at \$1.2Bn post

COMPARABLE HEALTHCARE VOICE AI / PATIENT ENGAGEMENT VALUATIONS

COMPANY	STAGE	VALUATION	REVENUE	MULTIPLE
Hippocratic AI	Late Growth (Private)	\$3.5Bn (Nov 2025); \$404M total raised	Not disclosed; reports >50 health systems	Category brand; clinical-facing focus
Hello Patient	Early Growth (Private)	\$100M post (Sep 2025); \$28.8M total raised	Not disclosed; 10-20K conversations/day	Direct comp; behind Assort in scale
Notable Health	Late Growth (Private)	\$1.4Bn (2021 mark; stale)	Not disclosed	Older valuation; broader product
Assort Health (ID8 entry)	Growth (Private - Series C)	\$1.2Bn (May 2026, unannounced)	Est. \$25-40M ARR (based on 3.5x interaction growth + Activate launch + 22 specialties)	~30-48x forward ARR
Veeva Systems (NYSE: VEEV)	Public	~\$25Bn market cap	\$3.2Bn TTM	~8x EV/Revenue / ~28x EV/EBITDA
Doximity (NYSE: DOCS)	Public	~\$4.5Bn market cap	\$620M TTM	~7x EV/Revenue / ~14x EV/EBITDA
Phreesia (NYSE: PHR)	Public	~\$1.9Bn market cap	~\$430M TTM	~4.5x EV/Revenue (not yet profitable)
NICE Ltd. (NASDAQ: NICE)	Public	~\$10Bn market cap	\$2.8Bn TTM	~3.5x EV/Revenue / ~12x EV/EBITDA
Five9 (NASDAQ: FIVN)	Public	~\$1.9Bn market cap	\$1.1Bn TTM	~1.7x EV/Revenue / ~12x EV/EBITDA

1. Assort revenue at Series C is estimated based on triangulation: (i) 3.5x patient-interaction growth from Aug '25 (42M) to May '26 (150M+); (ii) expansion from multi-spec at Series B to 22 specialties at Series C; (iii) Activate product launch May '26 expanding from inbound to outbound. Private valuations otherwise reflect last disclosed primary round. Hippocratic AI Series C led by Avenir Growth (Nov 2025); Hello Patient Series A led by Scale Venture Partners (Sep 2025); Notable Health Series B '21 mark may not reflect current market. Public market data as of May 2026. Public market caps are volatile and for reference only - not forward-looking.

REVENUE MULTIPLE ANALYSIS

Assort's \$1.2Bn Series C entry implies ~30-48x forward at our estimated \$25-40M ARR range. The Series B mark (\$700M / \$3.6M TTM = 194x trailing) compressed materially to ~35x forward at implied \$20M ARR exiting 2025. The Series C step-up of ~1.7x in 9 months is supported by 3.5x interaction growth, 22-specialty coverage (up from orthopedics-only at Seed), 5,000+ provider footprint, and the Activate product launch (May '26) extending revenue surface to outbound. Even on a conservative \$25M ARR assumption, the 48x forward sits below Hippocratic's category-leader implied marks. Critical watch item: revenue is estimated - confirming actual ARR is the primary diligence item before closing.

Research date: May 2026 - PitchBook (PBID 529085-26) Priority 1 - Live web search verified May '26 - Series C unannounced - sourced via deal team

#	SOURCE / PUBLICATION	WHAT WAS FOUND	URL / CITATION
1	PitchBook (PBID 529085-26) - Cap table check	Confirmed: Menlo Ventures is NOT in Assort's cap table at Seed, Series A, or Series B. Series C would be Menlo's first time investing in Assort. This is the exact ID8 screen (NEW Tier-1 lead). Series B closed Aug 26 '25 at \$624M pre / \$700M post.
