

WHAT THE COMPANY DOES

Commure builds AI software that does the administrative work hospitals and doctors' offices need to operate. Three core products: (1) revenue cycle management - the software reads the doctor's visit, codes it, files the insurance claim, fights denials, and posts the payment, doing 85%+ of the work without a human; (2) ambient AI clinical notes - software that listens to a doctor-patient visit and writes the clinical note automatically; (3) practice management - scheduling, billing, and patient communication tools. They sell to hospital systems and large medical groups. Customers pay software subscriptions plus per-claim fees. Tens of billions of dollars in insurance payments flow through their systems annually. Customers include HCA Healthcare and Tenet Healthcare.

WHY CONSIDER

Verified Scale + Path to IPO

Per Axios (Jun 2025), revenue exceeds \$200M annually. Per Sacra (Mar 2024), \$105M ARR growing 150% YoY. Positive cash flow targeted EOY 2026; IPO planned 2027. 500+ healthcare orgs, 3,000+ care sites, 130+ of the largest U.S. health systems including HCA and Tenet.

Full-Stack vs Point Solutions

Bundles three products competitors sell separately: ambient AI (post-Augmedix), revenue cycle (post-Athelas), patient navigation (post-Memora). Defensible vs Abridge (scribing only) and Innovaccer (data only). Hospital buyers prefer one platform over five vendors.

Direct Access

Coming direct via Jesse means no venture partner intermediary - ID8 keeps the full 20% carry vs. our standard 10% net. Materially better economics than the typical VP-routed transaction.

MANAGEMENT TEAM

Tanay Tandon - Co-Founder & CEO

Stanford CS. Built and sold Clipped to Pinterest. Co-founded Athelas in 2016 with Deepika. Became CEO of combined Commure-Athelas post-merger Oct 2023. Forbes 30 Under 30.

Deepika Bodapati - Co-Founder & COO

USC biomedical engineering, Stanford molecular imaging research scientist (5 publications). Co-founded Athelas with Tanay in 2016. Inc.'s 2026 Female Founders 500.

Hemant Taneja - Executive Chair (CEO of General Catalyst)

Founded Commure inside GC in 2017. Backed Tanay and Deepika at Athelas since 2016. Engineered the 2023 merger. Remains Executive Chair through every round.

ROUND DETAILS

Round	Later Stage VC - May 19, 2026 (10th round)
Size/Pre/Post	\$70M - \$6.93Bn pre - \$7.0Bn post (1.0%)
Lead	General Catalyst (follow-on)
Participants	Sequoia (follow-on), Morgan Stanley (new), Kirkland & Ellis (new)
Sourcing	DIRECT via Jesse Bloom
Step-Up	~1.17x from Athelas merger (\$6B, Oct '23) over ~20 mo
Total Raised	\$750M (per PR) / \$859.7M (PB incl. CVF + debt)

Cap Table

Seed / Series A (2017) - \$2M / \$10M	
Undisclosed investors (GC-incubated)	
Series B (Jan 2018) - \$24.8M @ \$155M post	
David Rowan + undisclosed	
Series B1 (Apr 2019) - \$27M @ \$317M post	
General Catalyst (entered)	T1
8VC (entered)	T1
Human Capital, Designer Fund, Quiet Capital	
Series C (Aug 2021) - \$362M @ \$1.36Bn post	
Lux Capital (entered)	T1
Green Sands Equity	
Series D (Jan 2022) - \$154M @ \$3.5Bn post	
Greenoaks Capital (co-lead, entered)	T1
Human Capital (co-lead, follow-on)	
Quiet, Toba, FJ Labs, Also Capital	
Athelas Merger (Oct 2023) - combined @ ~\$6Bn	
Sequoia Capital (entered)	T1
NVIDIA (strategic, entered)	
Y Combinator (entered)	
Tribe, AIX, Liquid 2, Sunflower, Vinthera	
Series E - GC CVF (Jun 2025) - \$200M non-dilutive	
Maverick Israel, LTS Growth, Shasta Ventures	
Latest Round (May 2026) - \$70M @ \$7Bn	
General Catalyst (lead, follow-on)	T1
Sequoia Capital (follow-on)	T1
Morgan Stanley (NEW - strategic*)	
Kirkland & Ellis (NEW - strategic)	

* Morgan Stanley not on Tier 1 Master List; qualifies under domain-strategic path (Polymarket / NYSE-ICE precedent). Cap table verified via PitchBook PBID 187710-13.

FINANCIAL SNAPSHOT

METRIC	Pre-Merger ('23)	Mid-2025	Latest ('26)
Post-Money	\$3.5B (Series D)	\$6.0B (Athelas)	\$7.0Bn
Annual Revenue	\$100M ARR Jan '24	\$200M+ (Axios Jun '25)	\$200M+ (last disclosed)
Revenue Growth	550% ARR (3-yr)	150% YoY	Not disclosed
Cash Flow	Burning	Burning	Positive by EOY 2026
Health Systems	Hundreds	130+ largest US	500+ / 3,000+ sites
Clinicians	Growing	Tens of thousands	500,000+
Headcount	~600	~1,300	1,563 (May '26)

RISKS & MITIGANTS

EHR Vendors Building Native AI

Epic, Athena, Oracle Cerner are all shipping their own AI features. If hospitals get good-enough ambient + revenue cycle from their existing EHR vendor, Commure's full-stack thesis compresses. Mitigant: 60+ EHR integrations create switching costs; Commure ships AI faster than incumbents.

AI Model Commoditization

Underlying language models (OpenAI, Anthropic, Google) commoditizing fast. Ambient scribing differentiation is increasingly thin. Mitigant: Commure differentiates on workflow integration + healthcare-specific tuning, not the model layer.

Athelas-Commure-Augmedix-Memora Integration

Three acquisitions in 18 months. Platform unification still in progress. Mitigant: Tanay running combined entity 2+ years; 130+ enterprise customers including HCA/Tenet suggest integration not blocking sales.

Healthcare Sales Cycle + AI Liability

Health system procurement is slow; HIPAA + clinical liability for AI errors is real. Mitigant: 500+ orgs already deployed; 85%+ of revenue cycle work running autonomously = production proof.

IPO Window Risk

\$7B private mark requires a successful 2027 IPO at meaningfully higher valuation to deliver returns. Healthcare IT IPO comps have been mixed (Waystar held up, others delayed). Mitigant: positive cash flow targeted EOY 2026 strengthens IPO positioning.

Comps grouped by relevance - Direct private / Category adjacency / Strategic acquisition + public floor - Bull / Base / Bear at \$7Bn entry

COMPARABLE HEALTHCARE AI / REVENUE CYCLE / WORKFLOW VALUATIONS

COMPANY	STAGE	VALUATION	REVENUE	MULTIPLE
DIRECT PRIVATE COMPS - Healthcare AI / RCM / full-stack workflow				
Abridge	Late Growth (Private)	\$5.3Bn (Jun 2025); \$780M raised	\$7.6M TTM 4Q24 (PitchBook)	697x trailing (outlier - see note)
Innovaccer	Late Growth (Private)	\$3.45Bn (Jan 2025); \$651M raised	\$200M TTM 4Q24 (PitchBook)	17.25x EV/Revenue (disclosed)
Commure (ID8 entry)	Later Stage VC	\$7.0Bn (May 2026); \$860M raised	\$200M+ ARR (Axios Jun '25)	~35x revenue (anchored)
CATEGORY ADJACENCY - Healthcare AI; different wedge				
Hippocratic AI	Late Growth (Private)	\$3.5Bn (Nov 2025); \$404M raised	Not disclosed; 50+ health systems	Category ceiling; clinical not admin
STRATEGIC ACQUISITION + PUBLIC COMPS - RCM incumbents + healthcare SaaS				
Change Healthcare (Optum acq.)	Acquired Oct 2022	\$13.8Bn EV (UnitedHealth/Optum)	\$3.48Bn revenue (FY22)	~4x EV/Revenue (strategic exit)
R1 RCM (PE-acquired)	PE-backed (since Nov '24)	\$8.9Bn EV (TowerBrook + CD&R)	\$2.1Bn revenue (2024)	~4.2x EV/Revenue (PE take-out)
WellSky (PE-owned)	PE-backed (TPG + LGP)	~\$3.0Bn (2020 mark, stale)	Approaching \$1Bn (Axios Oct '24)	~3x revenue (stale mark vs current rev)
Waystar (NASDAQ: WAY)	Public (IPO 2024)	~\$8Bn market cap	~\$900M TTM	~9x EV/Revenue (public RCM peer)
Veeva Systems (NYSE: VEEV)	Public	~\$25Bn market cap	\$3.2Bn TTM	~7x EV/Rev / ~22x EV/EBITDA

Abridge's 697x trailing multiple reflects the gap between TTM 4Q24 (\$7.6M per PitchBook) and the implied ramp into Series E - snapshot, not steady-state. Commure revenue anchored to Axios June 2025: '>\$200M annual revenue, positive cash flow EOY 2026, IPO planned 2027.' Sacra independently estimated \$105M ARR in March 2024 growing 150% YoY. Change Healthcare and R1 RCM set the strategic-acquisition benchmark for AI-enabled revenue cycle at scale (~4x revenue). Innovaccer (17.25x) is the most relevant high-growth private peer. Public market data as of May 2026.

REVENUE MULTIPLE ANALYSIS

The cleanest revenue-grounded private peer is Innovaccer at 17.25x EV/Revenue (\$200M revenue, Kaiser Permanente-led Jan '25). Applying that to Commure's \$200M+ ARR implies ~\$3.5Bn - well below the \$7Bn entry, suggesting the round is pricing forward growth not in-place revenue. If Sacra's 150% YoY growth has held (debatable), implied ARR could now be ~\$400-500M, which would justify the multiple. Strategic floor: Change Healthcare exited Optum at ~4x on \$3.5Bn revenue (\$13.8Bn deal). R1 RCM PE take-out at ~4.2x on \$2.1Bn. These set the legacy RCM exit multiple at IPO scale. The bull case requires Commure to trade as high-growth AI infrastructure, not legacy RCM. Critical: confirming current ARR is the #1 diligence ask.

BULL / BASE / BEAR SCENARIOS - ID8 ENTRY AT \$7Bn

BULL

2.5 - 4x over 3-4 yrs

AI displaces legacy RCM. ARR reaches \$800M-\$1.2Bn by YE27. 2027 IPO at \$17-25Bn. Wins full-stack across ambient + RCM. Becomes the healthcare AI category leader.

WATCH FOR:
ARR clears \$600M YE26 / Major health system enterprise wins / RCM share gain vs R1

BASE

1.3 - 2.0x over 4-5 yrs

Holds RCM but bundling thesis splits with Abridge (ambient) and Innovaccer (data). ARR \$600-800M YE27. IPO 2027 at \$9-14Bn or strategic exit 2028-2030.

WATCH FOR:
Growth slows below 100% YoY / Customer concentration risk / Margin pressure from incumbents

BEAR

0.5 - 0.9x (down)

AI commoditizes; Epic + Oracle Cerner ship native. Athelas/Augmedix integration slows. ARR plateaus \$300-400M. IPO delayed or repriced; down round \$4-5Bn or strategic sale \$3-4Bn.

WATCH FOR:
Epic / Oracle native RCM AI / Athelas integration underperforms / IPO window closes

Research date: May 2026 - PitchBook (PBID 187710-13) Priority 1 - Web sources verified May '26 - Sourced via Jesse Bloom (direct)

#	SOURCE / PUBLICATION	WHAT WAS FOUND	URL / CITATION
1	PitchBook (PBID 187710-13)	Founded 2017; HQ Mountain View CA. Latest round May 19 2026 at \$6.93Bn pre / \$7.0Bn post on \$70M (1.0% acquired). Convertible Preferred. 1,563 employees. Total raised \$859.7M. PitchBook competitor list: Abridge, CareCloud, Change Healthcare, CitiusTech, NextGen, WellSky.	https://my.pitchbook.com/profile/187710-13
2	Axios / SiliconANGLE (June 19, 2025) - REVENUE ANCHOR	>\$200M annual revenue (Axios reporting). Positive cash flow expected end of 2026. IPO planned 2027. Tender offer planned for shareholder liquidity pre-IPO. Company may raise one more round before IPO. THE primary source for current revenue.	https://siliconangle.com/2025/06/19/healthcare-technology-startup-commure-raises-200m-ahead-ipo/
3	Sacra research report (Nov 2024) - REVENUE BENCHMARK	\$105M ARR estimate as of March 2024, growing 150% YoY post-Athelas merger. ID8s the M&A roll-up thesis: Commure has acquired ListRunner, Merlin, Karuna Health, Athelas, Augmedix, Memora. Triangulation point for Axios's later \$200M figure.	https://sacra.com/research/commure-at-105m-arr/
4	Commure GlobeNewswire (May 19, 2026) - LATEST ROUND	\$70M at \$7Bn post-money. GC-led with Sequoia, Morgan Stanley, Kirkland & Ellis. 500+ healthcare orgs, 3,000+ sites of care, 60+ EHR integrations, 85%+ of revenue cycle work autonomous. Tens of billions of dollars in annual payments processed. Tens of millions of appointments/yr.	https://www.globenewswire.com/news-release/2026/05/19/3297624/0/en/commure-raise-s-70m-at-7b-valuation-to-transform-healthcare-operations-using-ai.html
5	Fierce Healthcare (June 19, 2025) - IPO TIMELINE	Tanay Tandon quote: 'We are in no rush, but the company will likely be IPO-ready within the next two years.' Also: \$200M growth round from GC's Customer Value Fund (non-dilutive, performance-based). Confirms company has clear path to profitability if they choose, electing growth instead.	https://www.fiercehealthcare.com/health-tech/commure-raises-200m-growth-financing-general-catalyst
6	Athelas-Commure merger press release (Oct 4, 2023)	Merger announcement. Combined company led by Tanay Tandon as CEO, Deepika Bodapati as COO, Hemant Taneja as Executive Chair. Ashwini Zenooz (former Commure CEO) transitions to non-exec director. Per GC: 550% ARR growth in 3 years pre-merger; on track to \$100M contracted ARR by Jan 2024.	https://s24.q4cdn.com/622300748/files/doc_news/Commure-Combines-with-Athelas-2023.pdf
